How to read the index

A practical guide to the score, its limits, and the information shown in each department listing.

TOXICITY SCORE | 0-100

100 - (weighted mean x 10)

Across nine domains; higher score = worse experience

Very healthy	Healthy	Mixed	Concerning	High	Severe
< 30	30-39	40-49	50-59	60-69	70+

Nine weighted experience domains

Each rating is out of 10; 10 is the more positive experience.

Environment 15%	Hands-on experience 15%	Academics 12%
Faculty 12%	Senior-resident experience 12%	Work-life balance 12%
Mental health 12%	Stipend paid on time 5%	Safety 5%

SMALL SAMPLES

Most departments currently have one or two responses. Scores may shift as more residents respond. This is a resident-reported snapshot, not a census, institutional audit, or independently verified finding.

READING THE FIELDS

Stipend shows the most common band reported. States, colleges and departments are listed alphabetically. Name variants are merged into one official institution and state; near-identical repeat submissions within an hour are counted once.

ESTIMATED DUTY HOURS

An asterisk marks an estimate from reports by other residents at the same college or, if unavailable, the same specialty elsewhere. It is not a response from that department and is not derived from its score.

ANONYMOUS BY DESIGN

Only department-level aggregates appear here; no respondent-level records are shown.
